Summary of Content: Rond-Point is a task-based elementary French text that allows students to learn the language in a very active way. Students will be asked to organize information, make choices, draw conclusions, give advices interview classmates, etc. This method results in communicative, interactive classes. Through collaboration and communication, students work together to assimilate grammar, vocabulary, and culture and to create meaning in French. The textbook is made up of nine or ten units each focused on a learning goal utilizing techniques to encourage communication. Employing authentic audio material and ensuring that grammar is used in real contexts, Rond-Point endeavours to teach the real French language for young adult and adult learners.
