Language: French

Physical description: 1 textbook (192 pages) + 1 CD
1 workbook (128 pages)

Summary of Content: Objectif Express (level 1) is an intensive course geared to professionals who are beginners or have little background in French. The method focuses on the vocabulary and grammar needed to function in everyday life and work situations. The student text is divided into 10 units, representing about 120 hours of teaching. Units 1 to 6 help students prepare for the DELF 1 examination and Units 7 to 10 for DELF 2. Themes include: greetings, phone conversations, taking a trip, staying at an hotel, shopping and eating out, describing one's work and company, describing a typical work day and solving a problem (related to banking, health and technology). Each unit starts with a listening activity followed by a brief explanation of the vocabulary or grammar patterns to be retained and application exercises. A cultural section is included at the end of each unit. The end of the text contains the answer keys to the exercises, scripts of the recorded texts, a summary of expressions to retain, a brief dictionary (in 4 languages) and a map of the French-speaking world. The accompanying workbook provides a great variety of activities divided into 5 different sections ("Comprendre ;

Communiquer ; Grammaire ; Vocabulaire ; Phonie-graphie”) and also contains preparations to DELF A1 and DELF A2.

Level: Basic User (level 1 and 2): A1, A2

Public: FLE learners, Professionals with no or little background in French

Teaching suggestions: A good method for a French Business course at the beginner level and to prepare students for DELF A1 and DELF A2.
