| <p>Summary of Content: An in-depth introduction to the professional world of health practitioners in France through six chapters each describing practical situations and organized around the presentation of specialized vocabulary. The book, after a general introduction (Comment ça va ?), focuses on topics of interests from both the patient and the doctor's perspective. The lessons are mainly based on situations of interaction with vocabulary and exercises, but little grammatical notes. The book contains a diverse and detailed mix of situations that can be encountered in a private practice or hospital setting. The content is divided into the following chapters: « Patients et médecins ; Les médicaments ; Vaccins et examens médicaux ; L'hôpital.» This is a specialized book for learners of French that provides a detailed linguistic approach to health and medicine. With a lot of practical vocabulary and a wide range of practical situations, the book is designed for professionals. The book also contains an etymological lexicon and answer keys to the exercises.</p> | |
